## Baby Boppers (for babies 15mths -2yrs)

A beautiful parent and baby interactive class designed for toddlers (recommended 15 months – 2 years of age) at the commencement of the course. You will be amazed at just how fast your little one will catch on and the progress they make over the year is astounding. With mum, dad or grandparent by their side guiding and dancing with them, the child feels safe and secure and the adults gets a bit of a work out too! After a fun filled class it's about time to go home for a morning nap. Our little girl boppers wear leotards and swirly dance skirts pulled up on top of nappies looking way too cute! And for our little super heroes, T'shirt and shorts is just fine. Bare feet for both is advisable.

## Wiggles & Giggles (for tiny tots 2-3yrs)

Who said there was such a thing as terrible two's? Our talented Tinies learn to strut their stuff from a very young age and will be performing dance moves, gallops and tricks on command! In our Wiggles and Giggles class the focus is on music, dancing and fun and you will be so proud to see just how much confidence it gives them. For the first few weeks we have 'mum' in the room and then once a little more familiar with their surroundings it's 'time out' for mum or dad in the waiting room and our talented tinies get into action, learn to dance, listen to instructions and even how to line up and take turns preparing them beautifully for Kindy down the track. At the end of class mum, dad or nanna comes into the studio and watches a little exercise or dance and with a big applause from the parents. Fabulous music and themes that little ones adore. Dance Wear: Girls - Leotards and Sparkly Swirly Dance Skirts, Boys – T-shirt and shorts or Super hero outfit is they so wish. Dance Pumps for Girls and Black Pumps/or Bare Feet for Boys. Hair pulled back off the face.

*"With over 15 years experience in teaching children to dance and four children of my own, I was blessed with a natural affinity of relating well to children of all ages. I've gained so much joy and satisfaction from watching each child I've taught blossom with confidence and develop their potential. Dancing is an expression of life and giving your child the gift of dance will not only improve their memory skills, co-ordination, posture and fitness but most importantly encourage them to become more confident, expressive individuals. I hope you enjoy watching your little star dance just as much as I enjoy teaching them".*
